REPORT

OF THE

U. S. LAND COMMISSION,

December 15, 1902.

REPORT.

By virtue of the Act of Congress of June 21, 1898, "Granting Lands to the Territory of New Mexico," there were granted to the various Territorial Institutions, improvement of the Rio Grande in New Mexico, Water Reservoirs for Irrigation Purposes, and Public Buildings at the Capital, 1,343,080.00 acres of land. These lands were to be selected by a commission composed of the Governor of New Mexico, the United States Surveyor General of New Mexico, and the Solicitor General of New Mexico.

The commission had located and selected 591,817.92 acres prior to April 1, 1902, and since April 1, 1902, said commission has selected and located 327,954.05 acres, leaving a balance of 423,308.03 acres to be selected. This balance is altogether the lands granted for the improvement of the Rio Grande and for Water Reservoirs for Irrigation Purposes. This balance does not include the indemnity lands to be selected.

This report covers all business transacted by the commission from April 1, 1902, to December 15, 1902.

For an itemized statement of the receipts and disbursements see exhibits "A," "B" and "C" hereto attached.

The monies received by the commission amount to \$9,735.00, and the disbursements have been \$4,350.68, leaving a balance of \$5,384.32. The Locating Agent has several more selections to make, which will reduce this cash balance as shown by the last "Account Current," (Exhibit "D"), and which will probably exhaust the same.

Section 1 of the Act of June 21, 1898, "Granting Lands to the Territory of New Mexico," says: "That sections numbers sixteen and thirty-six in every township of the Territory of New Mexico, and where such sections, or any parts thereof, are mineral or have been sold or otherwise disposed of by or under the authority of any Act of Congress, other

non-mineral lands equivalent thereto, in legal sub-divisions of not less than one-quarter section, and as contiguous as may be to the section in lieu of which the same is taken, are hereby granted to said territory for the support of common schools, such indemnity lands to be selected within said territory in such manner as hereinafter provided: *Provided*, That the sixteenth and thirty-sixth sections embraced in permanent reservations for national purposes shall not at any time be subject to the grants of this act, nor shall any lands embraced in Indian, military, or other reservations of any character be subject to the grants of this act; but such reservations shall be subject to the indemnity provisions of this act."

A conservative estimate of the indemnity lands to be selected is 1,000,000.00 acres. This estimate includes all lands within the bounds of the confirmed Private Land claims, Indian, military and forest reservations, and lands under the several land laws of the United States prior to the passage of the act of June 21, 1898. In addition to the estimate given in this statement it will be found that many sections 16 and 36 are mineral in character, of which there is no record.

For an itemized list of indemnity lands and the location of the same see exhibit "D" hereto attached.

The future work of the commission will in a large measure be devoted entirely to selecting and locating the indemnity lands.

Owing to the fact that these indemnity lands are distributed throughout the Territory, the difficulty of making said selections in such a manner as will prove of the utmost benefit to the common schools entails no small amount of labor and responsibility upon the commission.

In view of the fact that but 640 acres could be leased in one body by leasing Sections 16 and 36, in place, while under the indemnity selections to be made, in many instances tracts of from 1000 to 10,000 acres may be selected and located, it is readily seen that these selections are valuable, and will be much sought after by persons or corporations desiring large areas of land in one body. The importance of making these indemnity selections can, therefore, not be overestimated.

The original appropriation of \$10,000.00, provided by the

Act of June 21, 1898, "Granting Lands to the Territory of New Mexico," has long since been exhausted, and it now devolves upon the 35th Legislative Assembly of New Mexico to provide the necessary means with which the commission can continue business, and proceed to make the indemnity selections.

The amount which the commission has provided for the proper transaction of business from April 1, 1902 (the regular appropriation provided by Congress having been exhausted prior to the date), to December 15, 1902, is \$9,735.00. In addition to providing funds for the future operations of the commission, it is the duty of the legislature to reimburse the commission in the sum of \$9,735.00, said amount having been expended by the commission in selecting and locating 327,954.05 acres of land. All of these selections immediately upon receiving the approval of the Hon. Secretary of the Interior, will be leased and thereby produce a revenue which will be of inestimable benefit to the several Territorial Institutions to which these selections of 327,954.05 acres were apportioned, said selections having been apportioned pro rata to the said institutions.

The estimate of 318,346.62 acres of indemnity mineral lands includes also the saline lands granted to the University of New Mexico; there being no record of the exact area of such lands the same have been estimated under one heading.

As hereinbefore stated, there remains to be selected and located 423,308.03 acres of land, same being lands granted for the improvement of the Rio Grande and Water Reservoirs, and in addition (approximately) 1,000,000.00 acres of indemnity lands, making a total of 1,423,308.03 acres yet to be located. I estimate that the cost of making these outstanding locations and selections will be \$30,000.00, which amount does not include the \$9,735.00 already due the commission as a re-imbursement for expenses of the commission from April 1, 1902, to this date. This estimate is based on the cost of the past operations of the Commission, and includes:

Salary of the Commission, viz:

Governor of the Territory, Surveyor General of New Mex-

ico, Solicitor General of New Mexico, each \$200.00 per annum.

The above salaries being the same as allowed by the Hon. Secretary of the Interior.

Salary of Locating Agent, \$6.00 per diem, and payment of actual expenses while on the road or in the field in the discharge of his duties.

Respectfully submitted,

MORGAN O. LLEWELLYN,

U. S. Surveyor General and Special Disbursing Agent.

To His Excellency:

MIGUEL A. OTERO,

Governor of New Mexico.

Abstract of Payments

Made by Morgan O. Llewellyn, U. S. Surveyor General for New Mexico, under the appropriation for expenses of the U. S. Land Commission during the quarter ending June 30, 1902.
